1. **DEFINITIONS AND INTERPRETATIONS:** For the purposes of this Listing Agreement ["Authority" or "Agreement"], "Seller" includes vendor, a "buyer" includes a purchaser or a prospective purchaser and a "real estate board" includes a real estate association. A purchase shall be deemed to include the entering into of any agreement to exchange or the obtaining of an option to purchase which is subsequently exercised. This Agreement shall be read with all changes of gender or number required by the context. For purposes of this Agreement, anyone introduced to or shown the Property shall be deemed to include any spouse, heirs, executors, administrators, successors, assigns, related corporations and affiliated corporations. Related corporations or affiliated corporations shall include any corporation where one half or a majority of the shareholders, directors or officers of the related or affiliated corporation are the same person(s) as the shareholders, directors, or officers of the corporation introduced to or shown the Property.

2. **COMMISSION:** In consideration of the Listing Brokerage listing the Property, the Seller agrees to pay the Listing Brokerage a commission of % of the sale price of the Property as See Schedule A or such other amount as the Seller may accept.

Any deposit in respect of any agreement where the transaction has been completed shall first be applied to reduce the commission payable. Should such amounts paid to the Listing Brokerage from the deposit or by the Seller's solicitor not be sufficient, the Seller shall be liable to pay to the Listing Brokerage on demand any deficiency in commission and hereby owing on such commission.
All amounts set out as commission are to be paid plus applicable taxes on such commission

Frequently Asked Questions

Q Why is my account being closed?
A We are taking this action because we have decided to stop offering a Citi® MasterCard® card featuring an everyday offer of 0% APR for 9 months on purchases greater than $250. Our decision was not based on any information regarding your individual account or your credit standing.

Q: Does this discontinuance have any impact on any other Citi Branded cards?
A No. At this time only this particular card with these specific features is being discontinued.

Q Do I need to call Customer service to close my account?
A No. The closure of your account will take place on Feb 25 2010 and requires no action on your part.

Q: When is the last day I can use my card?
A The last day you will be able to make purchases with your card is February 24 2010

Q Do I still have to pay off the account balance?
A Yes, you are still responsible for any remaining balance on your account in accordance with your card agreement. You do not need to pay off your entire balance when your account is closed; however, you must pay at least the amount indicated on your billing statement as the minimum payment due each month until your balance is paid off. You will continue to receive a monthly statement until any remaining balance is paid in full.

Q If I am currently disputing a charge on my card will this closure affect the outcome?
A No the process for disputing charges on your card will not be affected by the account closure

Q: Is there an opportunity to apply for any other Credit Cards?
A. Yes, Citi Cards has other credit opportunities for your ongoing needs. Visit **www.citicards.com** for more information.

Secure Your Tax Records from Identity Theft

Identity theft occurs when someone uses your personal information such as your name, social security number (SSN), or other identifying information, without your permission, to commit fraud or other crimes. An identity thief may use your SSN to get a job or may file a tax return using your SSN to receive a refund.

To reduce your risk:

- Protect your SSN
- Ensure your employer is protecting your SSN, and
- Be careful when choosing a tax preparer.

If your tax records are affected by identity theft and you receive a notice from the IRS, respond right away to the name and phone number printed on the IRS notice or letter.

If your tax records are not currently affected by identity theft but you think you are at risk due to a lost or stolen purse or wallet, questionable credit card activity or credit report, contact the IRS Identity Theft Hotline at 1-800-908-4490 or submit Form 14039.

For more information, see Publication 4535, Identity Theft Prevention and Victim Assistance.

Victims of identity theft who are experiencing economic harm or a system problem, or are seeking help in resolving tax problems that have not been resolved through normal channels, may be eligible for Taxpayer Advocate Service (TAS) assistance. You can reach TAS by calling the TAS toll-free case intake line at 1-877-777-4778 or TTY/TDD 1-800-829-4059.

Protect yourself from suspicious emails or phishing schemes. Phishing is the creation and use of email and websites designed to mimic legitimate business emails and business. The most common act is sending an email to a user falsely claiming to be an established legitimate enterprise in an attempt to scam the user into surrendering private information that will be used for identity theft.

The IRS does not initiate contacts with taxpayers via emails. Also the IRS does not request personal detailed information through email or ask taxpayers for the PIN numbers, passwords, or similar secret access information for their credit card, bank, or other financial accounts.

If you receive an unsolicited email claiming to be from the IRS, forward this message to *phishing@irs.gov*. You may also report misuse of the IRS name, logo, or other IRS property to the Treasury Inspector General for Tax Administration at 1-800-366-4484. You can forward suspicious emails to the Federal Trade Commission at *spam@uce.gov* or contact them at *www.ftc.gov/idtheft* or 1-877-IDTHEFT (1-877-438-4338).

Visit IRS.gov to learn more about identity theft and how to reduce your risk.

Privacy Act Notice

Section 6109 of the Internal Revenue Code requires you to provide your correct TIN to persons (including federal agencies) who are required to file information returns with the IRS to report interest, dividends, or certain other income paid to you; mortgage interest you paid; the acquisition or abandonment of secured property; the cancellation of debt; or contributions you made to an IRA, Archer MSA, or HSA. The person collecting this form uses the information on the form to file information returns with the IRS, reporting the above information. Routine uses of this information include giving it to the Department of Justice for civil and criminal litigation and to cities, states, the District of Columbia, and U.S. possessions for use in administering their laws. The information also may be disclosed to other countries under a treaty, to federal and state agencies to enforce civil and criminal laws, or to federal law enforcement and intelligence agencies to combat terrorism. You must provide your TIN whether or not you are required to file a tax return. Under section 3406, payers must generally withhold a percentage of taxable interest, dividend, and certain other payments to a payee who does not give a TIN to the payer. Certain penalties may also apply for providing false or fraudulent information.

Now in calm weather, to swim in the open ocean is as easy to the practised swimmer as to ride in a spring-carriage ashore. But the awful lonesomeness is intolerable. The intense concentration of self in the middle of such a heartless immensity, my God! who can tell it? Mark, how when sailors in a dead calm bathe in the open sea—mark how closely they hug their ship and only coast along her sides.

But had Stubb really abandoned the poor Pip to his fate? No, he did not mean to—at least, not consciously. Because there were two boats in his wake, and he supposed, no doubt, that they would of course come up to Pip very quickly, and pick him up; though indeed such considerations as these were entirely overlooked in the panic of the moment. Besides, it is this same divine, desperate, self-abandoning courage, this same fearlessness and recklessness of mood, which make a valuable whaleman. Courage is common enough in the world; but courage enough to lose sight of consequences, is a very uncommon and precious quality. Perhaps, in strictness, Stubb was not to be blamed for what he did. Not improbably, he was quite right in his matter-of-fact way, to suppose that Pip, in the first place, would inevitably be picked up by the nearest boat; and that, in the second place, considering the peculiar circumstances of the case, Pip's chances for escaping a watery doom altogether, were rather better than worse. But be all this as it may, certain it is, that Stubb's precipitate retreat with the boat, was hailed by the occupants of the other boats as an entirely natural act, and evoked no remonstrance. Indeed, had any other boat been manned by a crew at all inferior to Stubb's, it is quite probable that it would have been utterly impossible to rescue Pip. For in the first place, the moment the body struck the water, the inexperienced eyes in the other boats would have been crossed by the line; and in the second place, even could the body be caught, unless the boat were under the command of a furious fellow like Stubb, who would not listen to any conscientious scruples concerning it, the strong, sinewy fishermen would have been morally certain to let it go, rather than risk being dragged overboard by the proximity of the dead weight. But in the case of Pip, all these difficulties were obviated. Not one hand was raised to help him, and unassisted he was dragged in by the line.

Flowers I bought from a girl just yesterday
Angel cards wanting for the light to change
I noticed a homeless man and he gave a look
She was naked and well-fed, got a roof and it
Her face lit up when she looked inside
And pulled out a broken armless doll
I left down and gave it to the smallest Child
And God was thrilled there was that smile

[Chorus]
It ain't pretty but it's beautiful
The heart isn't perfect but it's wonderful
We're still learning to feel versatile
It ain't pretty but it's beautiful

God I remembered we were both what I'd seen
She grabbed her purse took me by the hand and said come with me
We drove around until we found the three of them
I wondered who was there to who with if anyone
We bought them food and clothes and then I knew to buy shoes
And the little girl said "I think I need a brand new doll"
So she hugged the broken armless one then found button
she said "this one needs attention"

[Chorus]

She isn't pretty but she's beautiful
She's not perfect but she's wonderful
She might be broken but she's loveable
She is not pretty but she's beautiful

I just might give wife a call I talked till the sun came up
About how we fuss and fight sometimes
How silly things get so unkind
But we'll make it all we do is find our way back to love

It ain't pretty but it's beautiful
Our love isn't perfect but it's wonderful
We're still learning to feel versatile
It ain't pretty but it's beautiful
We're all learning to be loveable
Ain't always pretty but it's beautiful

NATIONAL PRESCRIPTION SAVINGS NETWORK
8717 W 110th Street
Overland Park KS 66210

The enclosed pharmacy discount cards:

- **Save you up to 75% on your prescriptions**
- **Are pre-activated and can be used immediately**
- **Have no fees, now or ever – they're absolutely free**

Dear New Member

You and everyone in your household are now entitled to savings on every FDA approved prescription medication. Simply take one of the free enclosed cards to virtually any pharmacy in the United States and you can save up to 75% off (and an average of almost 50% off) all prescription purchases.

If your prescriptions are not covered by insurance or if you pay too much for "out-of network" prescriptions, this card can save you money on almost all prescription medications, regardless of your medical history.

There are no fees to use these cards- and you will never be charged for them

How is the National Prescription Savings Network able to offer such a valuable service for free? The answer is buying power. Do You Really Want to Raise Your Self-Esteem?

12 Steps to Get You Started...

Make it your intent to:

1. Be on time for everything. You show respect for others and they will trust you. Those who respect others do not cheat, deceive or steal and are trusted.
2. Be clean. Consistently groom your body, organize your space and donate to others. Nurture your body and your relationships and you will be confident.
3. Say only supportive things to yourself. Convert negative thoughts to think positively about yourself and others. You will be loyal.
4. Keep your conscience clean. Talk to someone you trust. To confess is to heal. Have courage to do the right thing and you will build a good reputation.
5. Take responsibility for your actions and choices--forgive yourself and others. Forgive and forget the incident and you will be tranquil.
6. Put your desires in writing. You must know what you must to have it. Clarity makes one powerful.
7. Be aware and appreciate the good in your life daily. This keeps you in the present and you will be gracious.
8. Share your knowledge with those who wish to show. Contribute and participate and you will be joyful.
9. Do what you love to do and do it where you want to be. You will be happy.
10. Do what you say you will do. When you say you will do it, whether you feel like it or not. Keep yourword and you will be reliable.
11. Tell your truth in the moment. Don't wait for the "right" time. You will be accountable for your choices.
12. Be calm and quiet for at least 24 minutes daily (two minute for every hour of the day). Pray, meditate or experience nature and you will be peaceful.

Self-Esteem, as defined by the National Association for Self-Esteem, is the experience of being capable of meeting life's challenges and being worthy of happiness.

How Can I Test My Fax Machine?

I just hooked up a new fax machine and I'd like to test it just to make sure it works. How can I do that?

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both:

To test the send functionality of your fax machine, send a one-page fax to 1-888-877-1655 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero: the site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax.

whatsoever (no university names and no student names), how you handled it, and what the outcome was.

7 I see you work for quite a few universities. How are you going to fit this into your workload?

Try not to take offense to this question. Simple answers here will do wonders. If these questions apply talk about them. 1. The other universities you work for only schedule you a number of courses per month and you find yourself very often with far less work than you can handle. 2. You manage your time very effectively. 3. You never take on more work than you can handle and still provide quality instruction. While your CV may seem as though you work for a lot of places, this has given you a lot of experience and scheduling is all over the map with little consistency. Don't tell me they want you to work 40 hours. Address this question candidly and honestly and that they understand as adjuncts workloads can be scattered and that it is very likely the candidate does in fact have time for the job.

Remember, try to turn each question into a dialogue! Answer the questions, but allow room for the interviewer to get to know you too! Let them hear how personable and thorough you are (while not boring them) so don't take 5 minutes to answer a simple question). Honest answers are important, and remember that almost everything is verifiable online. You may get asked questions about your subject matter expertise, but I find this is rare, usually it's for positions in research methodology. The interview is an important time for you to emphasize the points you would like to make.

When the interviewer asks if you have questions **the answer is absolutely never "I do not" (unless you don't want to work there)**

Some questions you may consider asking

1. How long are the terms?
2. What platforms do you use?
3. Do you require or allow synchronous sessions? "I want to work for a school that values academic integrity. Can you tell me a little bit about your policies in this area?"
4. Who would I be directly working for?
5. What is the course review process if I notice something could use updating?

The goal with your questions is not only to answer questions, but to show the person interviewing you that you "know how the process works" and are asking questions that imply you will master the curriculum and be a thorough instructor.

Please share your most common interview questions in the comments area.

Are you flexible? [Something the interviewer emphasized a lot!]

How will you keep students interested in the lesson?

Keeping them actively involved in the lesson usually holds their interest.

Have you taught English before?

What is your experience? How long have you been teaching? Have you worked with ESL students before?

Sara Bareilles - "I Choose You"

[V1:]
Let the bough break, let it come down crashing
Let the sun fade out to a dark sky
I can't say I'd even notice it was absent
Cause I could live by the light in your eyes

[Bridge]
I'll unfold before you
What I've strung together
The very first words
Of a lifelong love letter

[Chorus]
Tell the world that we finally got it all right
I choose you
I will become yours and you will become mine
I choose you
I choose you

(Yeah.-)

[V2:]
There was a time when I would have believed them
If they told me you could not come true
Just love's illusion
But then you found me and everything changed
And I believe in something again

[Bridge]
My whole heart
Will be yours forever
This is a beautiful start
To a lifelong love letter

[CHORUS]

[V3:]
We are not perfect
We'll learn from our mistakes
And as long as it takes
I will prove my love to you

[Bridge Type 2:]
I am not scared of the elements
I am under-prepared, but I am willing
And even better
I get to be the other half of you

[CHORUS]
I choose you

Who carries his dreams like the coat slung on his shoulder
Bringing you love in the cap in his hand
And each step he takes is one half of a lifetime
no word he would say could you understand
So he bundles his regrets into a gesture of sorrow
Bringing you love cap in hand
Catching breath as he looks through the dining-room window
candle lit table for two has been laid
Strange slippers by the fire
Strange boots in the hallway
Put my cap on my head
I turn and walk away

Fire at Midnight

I believe in fires at midnight —
  when the dogs have all been fed
A golden teddy on the mantle —
  a broken gun beneath the bed
Silken mist outside the window
Frogs and newts slip in the dark —
  too much hurry ruins the body
I'll sit easy fan the spark
  kindled by the dying embers of another working day
Go upstairs take off your makeup —
  fold your clothes neatly away
Me I'll sit and write this love song
  as I all too seldom do —
  build a little fire this midnight.
It's good to be back home with you

a man goes to a public golf course txt please."

The gentleman from behind the counter turned to the man and said "Well the 18 holes is no problem. However, we had to get rid of the robots. We had too many complaints."

Confused, the golfer cried, "COMPLAINTS? Who in the heck could've complained about those robots? They were incredible"

The man sighed and said, "Well, it wasn't their performance. It was that they were made of shiny silver metal, and the sun reflecting off them was blinding to other golfers on the fairway."

The golfer said, "So then why didn't you just paint them black?"

The man nodded sadly and replied, "We did!! Then four of them didn't show up for work, two filed for welfare, one of them robbed the pro shop, and the other is running for President."

☐ **ERROR [220] : MAIN BATTERY POWER**

This error message will appear when the device's battery power is not sufficient. Although RUU will instruct you to plug in the AC adapter it still has to make sure that your device has enough power to upgrade the radio. (Even when you plug in the AC adapter, the device is unable to charge the battery when it is upgrading the radio)

☐ **ERROR [238] : FILE READ**

This error message may appear when, for some unknown reason, the ROM image on the Mobile Device is corrupt. Download the whole RUU and try again.

☐ **ERROR [240] : FILE OPEN**

When this error message appears, check whether the downloaded image is placed in the directory of RUU. If for some unknown reason you find that the ROM image is not located in the RUU folder, you have to download the RUU and retry again.

☐ **ERROR [242] : INVALID LANGUAGE**

☐ **ERROR [244] : INVALID MODEL ID**

☐ **ERROR [294] : INVALID VENDER ID**

☐ **ERROR [296] : UPGRADE ONLY**

One of these error messages will appear when you use the wrong RUU to do the upgrade. RUU will check if the Model ID and Language ID are compatible with the device. Make sure you use the appropriate RUU tool to upgrade.

☐ **ERROR [246] : DEVICE NOT RESPONDING**

This error message indicates that RUU cannot start the update process. Please contact your service provider for assistance.

☐ **ERROR [262, 276, 284, 302] : UPDATE ERROR**

This error occurs during the CE ROM code upgrade process.

Solution: If this happens, you can just soft-reset the device and run RUU again. The update process will then continue.

Investment Services

April 2, 2018

As part of the Dr. Smith Plus Plan's commitment to help with your investment strategy, we've hired a leading experienced advisory service, Insight Financial Strategies, to provide you with personalized investment advice. Insight Financial Strategies will help you choose investments that are right for you, based on your goals, risk tolerance, and time horizon. Advice is free to you as a participant in the Dr. Smith Plus Plan. You can take advantage of this service only if you engage Insight Financial Strategies to provide you with advice.

To get started, you will need to provide Insight Financial Strategies with certain information about your personal situation, including your age, income, and other investments you have outside the Dr. Smith Plus Plan. Insight Financial Strategies will analyze your information using its proprietary software and will provide you with a report containing its recommendations. The report will also include educational materials that explain the recommendations. You can then decide whether to follow the recommendations.

- **Participant Data:** Basic personal information, such as your age, salary, account balance, and other investments outside the Dr. Smith Plus Plan.
- **Investments:** The investment options available under the Dr. Smith Plus Plan.
- **Retirement Income:** Calculates an estimated annual retirement income based on your projected 401(k) Plus Plan balance, Social Security benefits, and pension benefits you're entitled to from other employers.

Your investment professional will then provide you with specific recommendations on how to invest your account. The first time you receive advice, you will be provided with a report containing the recommendations. Thereafter, you will receive updated reports and recommendations on an annual basis. Insight Financial Strategies will also be available to meet with you throughout the year to review your account and answer questions you may have about your investments. You can schedule a meeting by calling 1-800-555-0199.

Online Advice

If you prefer to receive advice online, you can do so at www.insightfinancialstrategies.com. To access the online advice program, you will need your personal identification number (PIN). You can easily get a PIN by logging on to your account at www.drsmithplus.com and following the instructions. You will be asked to provide the following information:

- Your risk tolerance, investment strategy (e.g., 100% stocks, 60% stocks/40% bonds, conservative, etc.)
- Your desired retirement date (you may select a date earlier or later than your normal retirement date or add the number of years you plan to work after retirement)
- Your current salary
- Your projected annual retirement income
- Whether you want to receive investment changes based on recommendations you've elected to receive

If you do not wish to receive advice, please complete the attached form and return it to us in the envelope provided. Your decision will not affect your participation in the Dr. Smith Plus Plan.

Sincerely,

Maria Gabriella Martinez

EXEMPTIONS

If owner or non-exempt use has already been granted, no pro rata exemption is allowed. If the assessor believes that applicant is not eligible for an exemption of a greater amount, a new claim must be filed for the assessment year next year. For the difference in the amount between the two exemptions and/or applicant to the supplemental assessment. A claim may be filed by the owner of record, lessee, or other person obligated to pay taxes. The claim must be timely filed with the assessor of the county in which the property is located. If you timely file a claim for exemption on the supplemental assessment, you may file any of those exemptions as previously described. If you do not file a claim for any other exemption, and you fail to file any claim for exemption(s) in a timely manner within the time limits set forth above, you will not receive the exemption(s).

YOUR RIGHT TO APPEAL

You have the right to a formal appeal of the assessment which includes (1) the value of a valid exemption; (2) a hearing before an appeals board; and (3) a written decision. An Application for Changed Assessment form is enclosed with this notice. You may also obtain the form from the County Clerk's Office at (714) 834-2631 or www.ocgov.com/clerk

FILING DEADLINES

(For counties in which the Board of Supervisors has not delegated the equalization function)

In general, a formal appeal must be filed within 60 days after the date of the notice (notice) shown on the postmark date on the notice, whichever is later. Untimely assessment of the assessment within one year may affect the result of the assessment review.

An application for a reduction in the assessment must be filed with the Clerk of the Board of Supervisors. The application must be signed by the person affected by the assessment or by his agent. If the application is made by an agent, the agent must be authorized in writing by the person affected by the assessment. The application must state specifically wherein the assessment is alleged to be incorrect, the reason why the assessment is alleged to be incorrect, the opinion of the taxpayer as to the correct assessment, and such other information as may be required by the assessment appeals board.

In any event, an application may be filed within 12 months following the date on which the notice is mailed. If you and the assessor agree that there is an error in assessment resulting from the assessor's judgment in determining the value of the property AND is willing to stipulate in a filed with the assessor, it will appear before the board.

ADDITIONAL APPEAL RIGHTS

Under article XIII A of the California Constitution, the new base year value will be based on the property's taxable value for subsequent assessment years. Unless the new base year value is timely appealed, for each subsequent assessment year the Assessor will establish the lower of: (1) the property's new base year value adjusted annually for inflation by no more than 2 percent, or (2) the property's current market value, taking into account reductions in value due to damage, depreciation, changes in market conditions, or other factors.

Each timely application is filed for the supplemental assessment roll will have your value automatically appealed. Regardless of an appeal of the new base year value may be filed during the regular appeals filing period for the current year or any of the three following assessment years. The regular appeals filing period for the current year is normally July 2 through September 15 or November 30, depending on whether the County Assessor mails assessment notices to all taxpayers with property on the assessment roll. You may also contact the Clerk of the Board to determine the regular filing period. Any reduction you may be as the result of such an appeal will however apply only to the assessment year for which the appeal is filed and assessment years thereafter, unless the supplemental assessment roll values for assessment years prior to the year for which the appeal was initially filed would be reassessed.

EXCLUSIONS

Certain classes of property or transfers between parents and children and between grandparents and grandchildren may qualify for exclusion from reassessment. If you believe that your property may qualify for an exclusion, please contact our office at (714) 834-2746 for further information.

UCLA Study

A study recently conducted by UCLA's Department of Psychiatry has revealed that the kind of face a woman finds attractive on a man can differ depending on where she is in her menstrual cycle.

For example: if she is ovulating, she is attracted to men with rugged and masculine features.

However, if she is menstruating or menopausal, she tends to be more attracted to a man with duct tape over his mouth and a spear lodged in his chest while he is on fire.

How Can I Test My Fax Machine?

I just hooked up a new fax machine, and I'd like to test it, just to make sure it works. How can I do that?

Presumably you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both.

To test the send functionality of your fax machine, send a one-page fax to 1 855 330 1239 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero. The site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax.

faxing remains a universal method of document delivery with billions of faxes sent every year

The first fax machine was invented by a brilliant Scottish clockmaker named Alexander Bain who sent the world's first picture-by-wire using analog telegraph technology in 1842

Welcome to

Windows® Fax and Scan

One place to scan and fax your documents

FAX: You can send and receive faxed documents on your computer without using a fax machine. You can also print, e-mail, or save a copy of your faxes.

To get started:

1. Connect a phone line to your computer.

   If your computer needs an external modem, connect the phone to the modem, and then connect the modem to your computer.

2. On the toolbar, click **New Fax.**

3. Follow the instructions in the setup wizard to connect to a fax modem, and then, when you're finished, create your fax.

To connect to a fax server instead of a modem, contact your system administrator. For more help with faxing, click the **Help** button on the toolbar.

SCAN: After you add a scanner to your computer, you can preview documents or pictures before you scan them, and then adjust your scan settings for better results. You can also fax or e-mail scanned files to someone else.

To get started:

1. Connect your scanner to your computer by following the instructions that came with your scanner, and then place a document or picture on the scanner.

2. In Windows Fax and Scan, at the bottom of the left pane, click **Scan.**

3. On the toolbar, click **New Scan.**

4. Choose the scan settings you want to use, and you're ready to scan.

Use the options on the toolbar to fax, e-mail, print, or copy scans at any time. For more help with scanning, click the **Help** button on the toolbar.

Topics for First Paper in History 351
Fall 2012

Choose one of the following topics and, using your assigned readings and classroom lectures and discussions, write a well rounded essay of 4 to 6 double-spaced typed pages (ca. 800-1500 words) about it. Be sure to back up your own opinion with well chosen examples from the readings, lectures, or discussions. While you may use other primary sources (such as the U.S. Constitution), use only the assigned secondary readings.

Be especially sure to avoid plagiarism, which is academic dishonesty and an honor code violation. Using the writings of others without quotation marks and attribution is plagiarism. If you quote any sources, use quotation marks and a citation. Too close a paraphrase also is plagiarism; be sure to thoroughly recast sentence structure and any distinctive phrases in the sources you use or quote the section (using footnotes, endnotes, or parenthetical references). If you have questions or problems, please contact your instructor.

This paper is due on **Sept. 26.** Unexcused late papers will lose 1/2 letter grade each day.

1. Some historians believe that the American Revolution set off a period from 1775 until 1820 when slavery as an institution was under attack even in the South. To what extent do you agree? Focusing on the South during this period, discuss the ways in which individuals and states either advanced or resisted manumission in laws and actions during this period. Do slave revolts or the Missouri crisis play a role in attitudes toward slavery in the South?

2. Why and to what extent did southerners and the southern states challenge the central government in Washington between 1790 and 1835? What similarities and differences do you see between the Kentucky/Virginia Resolves of 1798, the Missouri crisis, and South Carolina's nullification of the tariff? Be sure to discuss the reasons for these controversy and the kinds of constitutional questions and rights under discussion. Do you think the challenges are escalating over time?

Statement of HIPAA Portability Rights

Providing creditable coverage: In general, group health plans must provide coverage for medical conditions present before an individual's enrollment. These restrictions are known as "preexisting condition exclusions." A preexisting condition exclusion is a provision that limits or denies benefits for certain medical services, diagnoses, care or treatment based on conditions existing before the date of enrollment in the plan. Generally, before your enrollment date, you can ask your plan if coverage under the plan, or if there is a waiting period, the first day of your coverage period (typically, your first day of work). In addition, a preexisting condition exclusion cannot last for more than 12 months after your enrollment date (18 months for late enrollees). Time limits and exclusions cannot apply to pregnancy and cannot apply to a child who is enrolled in health coverage within 30 days after birth, adoption, or placement for adoption. If a plan imposes preexisting condition exclusions, the length of the exclusion must be reduced by the amount of your prior creditable coverage. Most health coverage is creditable coverage, including group health plans (except COBRA continuation coverage, individual health policies, Medicare, Medicaid, State Children's Health Insurance Program (SCHIP), and coverage through high-risk pools and the Peace Corps. Not all forms of creditable coverage are required to provide certificates. If you cannot receive a certificate, ask for past coverage to be taken into your new plan's eligibility rules to see if one is needed. You can add to your creditable coverage by new coverage. However, if at any time you went for 63 days or more without any coverage (called a break in coverage), your plan will have the right to exclude coverage for a period of time. Therefore, once your coverage ends, you should try to obtain alternative coverage as soon as possible to prevent a 63-day break.

Right to get benefits with different or another plan: Under HIPAA, if you lose group health plan coverage, you may be able to get certain other group health plans for which you are eligible (such as a spouse's plan), even if the plan generally does not accept late enrollees, if you request enrollment within 30 days. (Additional circumstances are triggered by marriage, birth, adoption, and placement for adoption.)

To switch, or to use your coverage in a group health plan that, after you are eligible for coverage, in another plan (such as spouse's plan), you should request special enrollment as soon as possible.

Prohibition against discrimination based on health factor: Under HIPAA, a group health plan may not discriminate against you or dependents in that plan based on anything related to your health. Also, a group health plan may not charge you (or the dependent) more for coverage, based on health, than it charges a similarly situated individual.

Testing
Fax

Introduction

This document will assist you in testing your HP Fax machine using the HP Fax Test Service.

Print this document for easy reference by clicking the **Printable Version** link in the upper right corner of this page.

Test your fax machine

To test the capability of your fax machine, follow the directions below.

NOTE: Be sure that your phone number is not Caller ID blocked by your telephone company prior to attempting to send and receive a fax. Pressing *82 before dialing the toll free number will unblock the Caller ID blocking feature in most areas. Other phone company services can prevent you from receiving a fax including voice mail, call blocking, or call privacy features.

NOTE: Whenever troubleshooting a fax issue, it is good practice to set the *Automatic Reprint* option to **Error** before attempting a test fax. This way, even if the sent fax fails, an error code will be generated that will guide you in future troubleshooting. This option is available in different places on different products, consult the product *User's Guide* for specific steps.

1. Send a one page black and white test fax to **1-888-hpfaxme** (1-888-473-2963).
2. When your fax is received by the HP Test Fax Service, we will generate a return fax to you within five minutes confirming that we received your fax. This verifies that you can both send and receive a fax with your fax machine.

If you do not receive a return fax within 5-7 minutes, there may be a problem with the setup of your fax machine. Consult the user manual that came with the product for proper setup and configuration.

NOTE: The most common cause of failure is that the fax number set in the Fax Header on the machine does not match the number of the phone line connected to the fax. Also, ensure that the fax header contains the full 10-digit telephone number of the fax machine, including the area code.

For more information or assistance, click **Contact HP** at the top of this page.

Comments

Here is the fax of the FINAL REPORT AND PROOF OF LOSS documents.

James Davant has not received the report from the engineer with EFI Global. I am forwarding these documents with the assurance from James that if the engineer finds any foundation issue related to the flood these documents can be amended. If this is not accurate, please let me know

I also understand from James Davant, that the $15 000 advance is included in the claim amount.

Thanks for your assistance with this. We look forward to getting the work on the house started

Have a nice Thanksgiving.

Though my steps are oh so slow
With my hand in His I'll go
On through life let come what may
He'll be there to lead the way
(CHORUS)

When the nights are dark and long
In my heart He puts a song
Telling me in words so clear
"Have no fear for I am near"
(CHORUS)

When my work on earth is done
And Life's victories have been won
He will take me home above
Then I'll understand His love
(CHORUS)

I love Jesus does He know?
Have I ever told Him so?
Jesus loves to hear me say
That I love Him every day
(CHORUS)

If you think this is neat please pass it on to your friends If you do not pass it on nothing bad will happen but you will have missed an opportunity to "reach out and touch" a friend or a loved one

God Bless Us All!!!

Make your site easier to navigate

Best Practices

Create a naturally flowing hierarchy

Make it as easy as possible for users to go from general content to more specific content they want on your site. Add navigation pages when it makes sense and effectively work these into your natural link structure.

Avoid:
- creating complex webs of navigation links, e.g. linking every page on your site to every other page (doing everything creates confusion and clutters your content and makes it harder to find what you're looking for)

Use mostly text for navigation

Generally most of the navigation on a page on your site through text links makes it easier for search engines to crawl and understand your site. Many search bots prefer that over other presentations, especially on sites/devices that might not handle Flash or JavaScript.

Avoid:
- having a navigation layout entirely on [illegible] images, or animations

Many but not all search engines can discover such links on a site, so if a user can reach all pages of a site via normal text links, this will improve the accessibility of your site. Users without [illegible] will appreciate it.

Tip #101

Flash

Web technology is [illegible] Adobe Flash [illegible]. It is easy to create web pages that navigate using video and animation.

Disadvantage: A user of [illegible] technology. It can also [illegible] to web pages and is hard to create and use links.

Navigation menus: A system to widen and organize content from a menu. When one clicks on the menu, content or changes are displayed in a [illegible] or [illegible].

Advantage: The ability for users and search engines to [illegible] and consistent access.

Use Importance

The importance cannot be a what. Example using probability, whether, and. Emphasis is positive or something an [illegible] is why should after by the use, such as "refinement," "convenience" and "benefits."

[illegible] Make a note.

A web [illegible] page. Big example of importance. Links and [illegible] when navigation are commonly [illegible] is [illegible]. This could [illegible] as [illegible] right, with a different meaning or [illegible] on the current work.

TEST

Dear [redacted]

Good news! As a homeowner with a new mortgage, you are now eligible for our Mortgage Protection Insurance. This coverage is more important than you may know. It is important to ensure that your family won't have the financial hardship of an unpaid mortgage. That's why having the security of our Mortgage Protection Insurance is so essential.

- **Accidents Are Unpredictable**
Unfortunately, accidents can't be predicted and you never think it can happen to you. Serious accidents can happen anywhere at anytime. In fact, today accidents are the fifth leading cause of death for all Americans.[1] What would happen if you were unable to make the mortgage payments on your home? If you are not prepared, your family could face losing the life and home you worked so hard for.

- **Your Affordable Premium Will Never Increase**
Rates start as low as $6.00 a month for this important accidental death insurance. The affordable premium you select will never increase for any reason. For just a small fraction of your monthly mortgage payment, you can feel safe knowing your family will be secure in their home if you die from a covered accident.

- **Acceptance Is Guaranteed**
Applying for this valuable protection is easy. No medical exams are required and there are no health questions to answer. Acceptance is guaranteed if you are between the ages of 18 and 69. Simply complete the application on the reverse side and return it in the enclosed postage-paid envelope. Everything is handled conveniently through the mail.

- **This Offer Won't Last Long — Please Reply Today**
Please consider this valuable and important protection available through the Home Mortgage Group of Globe Life And Accident Insurance Company. This offer is currently not available to everyone. It is only being made in homeowners like you, and right now you can take advantage of this important opportunity by completing your application today. You can choose the proposed amount or any other amount up to $350,000 shown on the application. When you apply, you can take advantage of our three easy payment options listed on the application. Your coverage will not be effective until payment is received.

- **The Right Protection For Your Family Today**
Securing this protection means that any other life insurance you may have will not be drained by mortgage payments. Your other funds will be fully available for your family's other needs. If you have any questions or would like to apply right now over the phone, please call 1-888-534-3251 Monday - Tuesday 8am to 6:30pm and Wednesday - Friday 8am to 6pm, CST. We look forward to helping you provide your family with the protection they deserve.

A Psalm of Life by Henry Wadsworth Longfellow (1807-1882).

Tell me not, in mournful numbers,
"Life is but an empty dream!"
For the soul is dead that slumbers,
And things are not what they seem.

Life is real! Life is earnest!
And the grave is not its goal;
Dust thou art, to dust returnest,
Was not spoken of the soul.

Not enjoyment, and not sorrow,
Is our destined end or way,
But to act, that each to-morrow
Find us further than to-day.

Art is long, and Time is fleeting,
And our hearts, though stout and brave,
Still, like muffled drums, are beating
Funeral marches to the grave.

In the world's broad field of battle,
In the bivouac of Life,
Be not like dumb, driven cattle!
Be a hero in the strife!

Trust no Future, howe'er pleasant!
Let the dead Past bury its dead!
Act,—act in the living Present!
Heart within, and God o'erhead!

Lives of great men all remind us
We can make our lives sublime,
And, departing, leave behind us
Footprints on the sands of time;

Footprints, that perhaps another,
Sailing o'er life's solemn main,
A forlorn and shipwrecked brother,
Seeing, shall take heart again.

Let us, then, be up and doing,
With a heart for any fate;
Still achieving, still pursuing
Learn to labor and to wait.

The sound quality is OK. However there s a delay lag when playing back voicemails. It seems that the device actually disrupts over the internet to play your messages. So for example when skipping through messages, it can often take 3-5 seconds for that next command to register after hitting it. This isn t a deal breaker but it is annoying.

NEVER JUST HANG UP Take as much of the telemarketer's time as you can If we all keep telemarketers on the phone for one minute or longer, we can bring the industry to a halt. Hey, they waste our time, why not waste theirs! Think about it If a telemarketer sells 5% of the people he calls, and each caller keeps him on for 2 minutes, that means that in order to sell 5 of his products he has to spend 200 minutes on the phone. And if 10% of the people demand copies of the telemarketer's "Do Not Call Policy" , it doesn't take a rocket scientist to see the results

NEVER...NEVER NEVER buy from a telemarketer!

Read 'em your rights!!!

May I have your company's name, address and telephone number? If you are calling on behalf of a client, may I have the name, address and telephone number of your company, as well as the name, address and telephone number of the company that you are calling on behalf of?

Put me on your "Do Not Call List" You are hereby ordered to share my "Do Not Call Request" with your affiliates, associates, and related entities. If you are a third-party service bureau (telemarketing company), put me on your company's 'Do Not Call List' as well as your client's "Do Not Call List"

Send me a copy of your "Do Not Call Policy". If you are a third party telemarketing service bureau, send me your company's "Do Not Call Policy" as well as your client s "Do Not Call Policy"

If you call me again, I will use your product or service and not pay for it My denial of payment will be based on the fact that your future calls are a violation of an act of Congress, and any contract that is entered into as a direct result of an illegal act is unenforceable Do you understand what I have just told you?
Will you comply with my requests?

Dear dennis baxter:

Thank you for choosing Vonage as your phone service.

We need you to CALL US at 1-Vonage Help (1-866-243-4357) so we can transfer 1302-947-2612 to your Vonage account.

We have been advised by your former phone company that they have a different address on your account than was provided in your number transfer request. For security purposes, we must be able to match your account information exactly in order to transfer your number. Please call us and provide us with the address as listed on file with your former phone company. Having a copy of a recent phone bill when providing this information might be helpful, but is not required.

Call us toll-free at 1-Vonage Help (1-866-243-4357). Our automated attendant will ask why you are calling. First say "More Options" and then "Number Transfer." If you will be connected with an agent who is ready to assist you. The call should only take about 3 minutes.

Once we are able to match the information on file with your former phone company, we can continue with your number transfer.

Please call us within 7 days or your number transfer request will be cancelled, and your temporary Vonage number will become your permanent number.

Remember: You can use your Vonage service in the meantime with your temporary number, and begin enjoying all the features of the Vonage service! Try it today!

Thank you for being a Vonage customer. We appreciate your business.

Sincerely,

Vonage customer care.

If you need additional information check out our Learning Center at: http://www.vonage.com/help.php
If you require further assistance, reply to this email by clicking on the reply button on your email program. Once we receive your reply a ticket will be opened so that we may further assist you.

Student's Name (please print)

Evaluator's Name (please print) Title/Position

Department, company Association with the field

To the Writer

Your evaluation is a critical part of a student's application to medical, dental other health professional schools, graduate schools, and for subsidized applications. It will not be used for prospective employment. Your response and service to students is appreciated.

The following guidelines may be helpful to you in preparing a letter of evaluation for a health professions applicant:

1. Context in which you have associated with the applicant.
2. Nature of the work or research done by the individual.
3. Your evaluation of the applicant's performance as compared with other individuals in comparable positions.
4. If applicable, courses in which you taught applicant and grade earned.
5. Personal attributes and any special personal strengths that might contribute to the individual's success as a health professional.

It is sometimes helpful to consider your own personal physician or dental professional you feel is unique value in his or her treatment of you and your family members. Interpersonal skills, as well as intellectual ability, can be important in establishing rapport. Specific examples of an individual's behavior or performance will carry more weight than general statements. The more you make the person come alive, the more effective this evaluation will be.

Your Evaluation

High-speed scanners and copiers will be used for processing letters. We have found that the final product of a hand-written letter can be difficult to read. For this reason, we ask that you please type your letter on departmental stationery. In case of processing, we ask that you complete this form and attach it to your signed letter of evaluation.

Letters of recommendation are confidential documents and must be treated as such. Therefore students are not authorized to hand carry documents unless they have the permission of a HPO staff member and the seal of the envelope has been signed by the writer. Please return it via mail, in the envelope provided by the student.

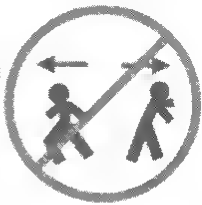
Zombie Emergency Procedure

In case of Zombie Apocalypse:

95% of all known zombies can be stopped by decapitation or destroying the brain. Aim your desperate, improvised weapons at the head and neck.

DO NOT SPLIT UP!
Someone WILL get killed, turn into a zombie and the next person to see them will go "Oh, it's my friend, I'll just turn my back and OH GOD WHY IS HE EATING MY BRAIN?!"



DO NOT USE FIRE
The only thing worse than undead hordes trying to eat your brain is undead hordes trying to eat your brain WHILE ON FIRE.

Paradigm Shift

FROM

"What is wrong with you?"

TO

"What has happened to you?"

This lens provides context, fosters compassion, and helps us to see strengths in the face of adversity.

To identify and unravel early trauma, their safety and well-being are best understood and their development helped if it is

Those factors in your life that protect you from the fractures the trauma could have caused but didn't, or help you to recover from trauma and other problems, are what we call possessions of health.

Understanding Blood Pressure Readings

[redacted]

Step 1: About High Blood Pressure

[redacted]

[redacted]

Blood pressure is typically recorded as two numbers, written as a ratio, like this:

117 / 76 mm Hg

Read as "117 over 76 millimeters of mercury"

Systolic

The top number, known as when the highest or the two numbers, measures the pressure in the arteries between heartbeats (when the heart muscle is resting between beats and refilling with blood).

Diastolic

The second number, which is also the lower of the two numbers, measures the pressure in the arteries between heartbeats (when the heart muscle is resting between beats and refilling with blood).

For healthy living, keep your numbers:

What is the AHA recommendation for another blood pressure?

This chart reflects Blood pressure Systolic, number by the American Heart Association.

3D Mammography Coming to our Saratoga Office!

Women's Care is announcing that we will be soon providing in-office 3D Mammography (also called digital breast tomosynthesis or DBT) in our Saratoga Springs office!

The coordinated and widespread utilization of screening mammography has helped reduce cancer mortality by 50%. While differences of opinion may exist on the optimal ages to implement screening, *all of the major medical societies and Women's Health advocacy groups agree that breast cancer screening, including regular mammograms, are a critical component of Women's Health.* By adding 3D mammography to our Saratoga office, our patients have easy access to state of the art screening mammography which can be conveniently scheduled with preventative health or other visits.

What is 3D-Mammography?

Breast tomosynthesis/3D mammography uses computer algorithms to generate digital images of the breast in very thin slices. Therefore, radiologists view the breast "slice by slice" comprising a 3D mammogram. Viewing your breast "slice by slice" helps radiologists see fine details often obscured by overlapping tissues in conventional mammography. This allows better visualization of suspicious findings including the size, shape and location. Studies have shown this technology can result in a 40% increase in the detection of invasive breast cancers. Importantly, the better discrimination and visualization also decreases callbacks and false positives.

Many larger facilities restrict access to 3D mammography to women with previously identified dense breast tissue, suspicious findings, or high risk. However, all women can potentially benefit from this enhanced technology. At Women's Care, we are making this technology available to all of our patients, as part of their routine screening, and is covered by many insurance carriers (including Medicare, CDPHP, ENERGY, and MVP). Our patients can schedule a 3-D (or 2D-digital) mammogram in conjunction with their annual visit, or schedule a stand-alone appointment, by calling our Saratoga Office. We are anticipating *state of the art 2D digital mammography available by early December* and *3D mammography availability by late December or early January 2017!*

Presumably you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both:

To test the send functionality of your fax machine, send a one-page fax to 1-888-877-1655 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero: this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully it will automatically answer and spit out the test fax.

Hi Danny

Can you try faxing from these fax machines that are having issues? Are these not done by you? I reset the voice gateways to see if that fixes the issue

I'll check on the fax at Nelson

I'm not sure if yall are having the same problem there, but the Konica at ECI, the Konica at Nelson, and possibly the Konica in the CHAD are all having issues faxing. I've attached an error sheet from ECI. They can fax internally but local and long distance faxes are not going through. Nelson is having the same issue with their Konica copier. Jerrianne said that she has received phone calls from some of the people she has faxed and they have said that they are only getting the first page of every fax she has sent, but this could just be an issue with the software they are using to open the fax. Both Robin Harbert and Dennis Sarina have both called and stressed to me that they need this issue resolved as soon as possible. Please let me know if there is anything I can try from my end

Thanks,

My Resume

I am a dynamic figure, often seen scaling walls and crushing ice. I have been known to remodel train stations on my lunch breaks, making them more efficient in the area of heat retention. I translate ethnic shirts for Cuban refugees, I write award-winning operas, I manage time efficiently. Occasionally, I tread water for three days in a row.

I woo women with my sensuous and goblike trombone playing, I can pilot bicycles up severe inclines with unflagging speed, and I cook Thirty-Minute Brownies in twenty minutes. I am an expert in stucco, a veteran in love, and an outlaw in Peru.

Using only a hoe and a large glass of water, I once single-handedly defended a small village in the Amazon Basin from a horde of ferocious army ants. I play bluegrass cello, I was scouted by the Mets. I am the subject of numerous documentaries. When I'm bored, I build large suspension bridges in my yard. I enjoy urban hang gliding. On Wednesdays, after work, I repair electrical appliances free charge.

I am an abstract artist, a concrete analyst, and a ruthless bookie. Critics worldwide swoon over my original line of corduroy evening wear. I don't perspire. I am a private citizen, yet I receive fan mail. I have been called number nine and have won the weekend passes. Last summer, I toured New Jersey with a traveling centrifugal force demonstration. I bat .400. My deft floral arrangements have earned me fame in international botany circles. Children trust me.

I can hurl tennis rackets at small moving objects with deadly accuracy. I once read Paradise Lost, Moby Dick, and David Copperfield in one day and still had time to refurbish an entire dining room that evening. I know the exact location of every food item in the supermarket. I have performed covert operations for the CIA. I sleep once a week, when I do sleep. I sleep in a chair. While on vacation in Canada, I successfully negotiated with a group of terrorists who had seized a small bakery. The laws of physics do not apply to me.

I balance, I weave, I dodge, I frolic, and my bills are all paid. On weekends, to let off steam, I participate in full-contact origami. Years ago, I discovered the meaning of life, but forgot to write it down. I have made extraordinary four course meals using only a Vegomatic and a toaster oven. I breed prizewinning clams.

I have won bullfights in San Juan, cliff diving competitions in Sri Lanka, and spelling bees at the Kremlin. I have played Hamlet, I have performed open-heart surgery, and I have spoken with Elvis.

But I have not yet worked at [INSERT COMPANY NAME HERE].

- PDF/A is a PDF file format intended for long-term archiving. This format contains all the necessary information to be able to reproduce the document after long term storage.
- If you choose Secure PDF, the machine will ask you to enter a 4-digit password using numbers 0-9 before it starts scanning.
- If you choose Signed PDF, you must install a certificate to your machine using Web Based Management. Choose **Configure Signed PDF Settings** from **Administrator Settings** in Web Based Management. For how to install a certificate, see the *Network User's Guide*.
- A Signed PDF helps prevent data tampering and the impersonation of an author by including a digital certificate within the document.

5 The LCD prompts you to enter an address. Enter the destination E-mail address from the dial pad or use the One Touch key or Speed Dial number.
Press Black Start/Mono Start or Color Start/Colour Start.
The machine will start the scanning process.

Note

You can store the scan resolution (**Scan Profile**) for each stored E-mail address in a One Touch or Speed Dial number. (*See Using One Touch or Speed Dial* on page 11.)

Using One Touch or Speed Dial number

You can also scan a document directly to an address you registered in a One Touch or Speed Dial number. When you scan the document, the settings you registered with the One Touch or Speed Dial will be used for the quality and the file type. Only One Touch or Speed Dials with an E-mail address registered can be used when you scan data using One Touch or Speed Dial. (I-Fax addresses are not available for use.)

1 Load your document.

2 Press (SCAN).

1. Send a one page black and white text fax to **1-888-hpfaxme** (1-888-473-2963)

2. When your fax is received by the HP Test Fax Service, we will generate a return fax to you within five minutes confirming that we received your fax. This verifies that you can both send and receive a fax with your fax machine

If you do not receive a return fax within 5-7 minutes, there may be a problem with the setup of your fax machine. Consult the user manual that came with the product for proper setup and configuration.

NOTE: The most common cause of failure is that the fax number set in the Fax Header on the machine does not match the number of the phone line connected to the fax. Also, ensure that the fax header contains the full 10 digit telephone number of the fax machine, including the area code

GENERAL DISCLAIMER

I, Mike Larsen, am in no way affiliated with Motorola or the Motorola cellular subscribing Group or any other subsidiaries. I affirm this guide free to the public net to encourage fraudulent use, but to give others the same information I obtained for free (and sometimes for money). Use of any information from this text (in part or whole) is encouraged provided proper credit is given. Names are left latent and email retains is given. After all, if someone is stupid enough to give money for something that is available on the web for free, well

This manual is not intended to be an aid in cellular fraud. Cell fraud is both illegal and immoral. Would you like someone to make changes on your phone? If you want free calls, you want to check elsewhere for that information because that type of information is NOT mentioned in the Motorola Bible.

This manual is not intended for use by people with little electronics experience. This is not a tutorial and not intended to be used except by people with previous cellular experience and are familiar with programming cellular phones.

If you have any additions or corrections about this manual, please email me at:

mjlarsen@hotmail.com

Additional Info

It has come to my attention that this has been sold at ham fests and my name removed throughout the text. This will be illegal August as of July 10, 1996. this is copyrighted work. All rights are reserved and I will prosecute. If you want to sell it, fine. I don't ask for any of the profits All I ask is you leave the entire text intact with my name as it appears.

Also, on, who has been spying about the fact I removed a little anecdotal story from the beginning of his portion in the bible. He released version 2.3 and put the story back in. Since it was not pertinent to cellular it will not be included. I have given him credit for what I have used and I am within my legal right to publish him little mention provided I give him credit (which I have). I do find it very amusing that he failed to give me

Prayer to St. Joseph over 1900 years old

O St. Joseph whose protection is so great, so strong, so prompt before the Throne of God, I place in you all my interests and desires. O St. Joseph do assist me by your powerful intercession and obtain for me from your Divine Son all spiritual blessings through Jesus Christ, Our Lord, so that having engaged here below your Heavenly power I may offer my Thanksgiving and Homage to the most Loving of Fathers. O St. Joseph, I never weary contemplating you and Jesus asleep in your arms. I dare not approach while He reposes near your heart. Press him in my name and kiss His fine Head for me, and ask Him to return the Kiss when I draw my dying breath. St. Joseph, Patron of departing souls, pray for us. Amen

Say for nine consecutive mornings for anything you may desire. It has seldom been known to fail.

This prayer was found in the fiftieth year of Our Lord Jesus Christ. In 1500's it was sent by the Pope to Emperor Charles when he was going into battle.

Whoever reads this prayer or hears it or carries it, will never die a sudden death, nor be drowned, nor will poison take effect on them. They will not fall into the hands of the enemy nor be burned in any fire, nor will they be defeated in battle.

Make this prayer known everywhere.

America's Understanding of Emancipation Proclamation On Its 150th Anniversary Too Simple For Country's Own Good

Posted: 01/01/2013 4:00 pm EST | Updated: 01/02/2013 4:22 pm EST

Abraham Lincoln, the tall president with the stovepipe hat, the full beard and the gold-stricken eyes, slipped away from the White House's annual New Year's celebration with a few members of his administration. Lincoln shielded his moves' than his hands.

After a few minutes he took a pen, signed the Emancipation Proclamation and ushered in the beginning of the end of two and a half centuries of American chattel slavery, some of its attendant violence and human degradation. Exactly 150 years ago today the contents of Abraham Lincoln's Emancipation Proclamation – a one-sentential document written on both sides of an ordinary sheet of White House paper – declared slaves living in most of the South "forever free."

For many American scholars, it's also the moment when universal, legal freedom becomes a reality for an estimated 4 million black slaves. But scholars who have studied the document, Lincoln and Civil War history say the limited understanding of how slaves became free citizens led to a national habit of thinking about complex issues like race and equality simply, like tasks challenges already wrestled with and resolved.

"Of all the country's foundational and key documents the Emancipation Proclamation may well be the most misunderstood," said Eric Foner, a Columbia University historian and a leading Reconstruction expert and Lincoln scholars.

"On the one hand, there are a healthy share of Americans who believe that Lincoln freed all the slaves with a stroke of his pen," said Foner, who this year published "The Fiery Trial: Abraham Lincoln and American Slavery."

"On the other, there is this cynical modern take that says Lincoln wasn't interested in emancipation, that his took action for purely political reasons, for military reasons and the notion that not many slaves were actually freed. None of that is entirely true."

Lincoln was not the one force behind emancipation but, after an essential part of a coalition of outspoken abolitionists that included the black-led writers, said Lonnie G. Bunch III, director of the Smithsonian's National Museum of African American History and Culture and one of the curators in the Smithsonian's 150th Emancipation Proclamation anniversary exhibit.

Stop a Bad Habit

Lincoln also was responding to the slaves' pressure slaves brought to bear, said Bunch.

From the very start of the war in South Carolina, slaves began running away more frequently and willingly, living in a state of legal limbo. What started with four slaves in Virginia given refuge in a Union-controlled fort, became hundreds and later thousands of slaves in areas just north of the Mason-Dixon line. In order to evade slave catchers, county-by-county figures put to find and return fugitive slaves to their masters, progressed to federal law, some set up so-called "contraband" camps near Union Army encampments or outposts, said Bunche. One such camp grew to what is now Arlington Cemetery just outside Washington D.C.

Slaves runaways also began to work for wages. They dug trenches and latrines, managed laundry and other tasks critical to war. Later when the Union Army began accepting black soldiers some negotiated with commanding officers to bring their families along.

That drive towards self-liberation was first documented about 30 years ago said Bunch, but most people have no knowledge of how slaves helped bring down the system.

"I don't say this to take anything away from Lincoln," said Bunch, author of the 2011 book Call the Last Dream Seek: Essays on History Race and Museums. "Ultimately the Emancipation Proclamation, the 13th Amendment, none of it would have happened without

The Fourteen Hundred

Did you know that being familiar with approximately 1400 Latin words enables you to read almost any Latin text without having to use the dictionary more than a couple of times per page? Those 1400 words make up what is called the basic Latin vocabulary. At least 80 per cent of any Latin text is made of words belonging to the basic vocabulary.

The following word list is based mainly on E. Habenstein, E. Hermes, H. Zimmermann *Grund- und Aufbauwortschatz Latein* Stuttgart: Ernst Klett Schulbuchverlag 1990. (The book itself is very intelligent and quite handy - a great relief for the beginner.) You may wish to keep this list for future reference, so that you can either (1) read it and mark the entries you do not recognise, then build up your vocabulary by learning those first, or (2) use it while you work on a Latin text to decide whether a word you are looking up in the dictionary deserves special attention.

General Bird FAQs

Q. What temperature is right for my bird?
A. Comfortable room temperature for most people (72-78 degrees Farenheight) is appropriate for birds. Birds cannot tolerate drafts; cages should always be kept away from direct breezes, vents, fans and even blowing heaters. Birds are also sensitive to sudden changes in temperature, a sudden increase or decrease can adversely affect your bird.

Q. Do I have to cover the cage at night?
A. Not necessarily. Birds need 10-12 hours of sleep to feel comfortable and rested. As long as the cage can be in a dark, quiet place, covering is not strictly necessary, but it can help block ambient noise and light if needed.

Q. Is the kitchen safe for my bird?
A. Not always. Cookware with a non-stick coating emits fumes undetectable to humans when it is heated. These fumes are fatal to birds. Avoid cooking on non-stick cookware with your bird nearby. Ventilate well and keep your bird in a different room when using non-stick cookware.

Q. What kind of human food is bad for my bird?
A. Some human foods are toxic to birds, avocado, coffee, alcohol and chocolate should not be offered at all. Seeds and pits from fruits can often be toxic and should be avoided. Other human foods, while not immediately fatal, can cause illness or health issues, especially if given in excess. Rich fatty foods, dairy products and foods high in salt and sugar are not easily processed by birds and can lead to obesity, heart disease, liver and kidney issues, chronic digestion problems and even death.

Q. What kind of human food is OK for my bird?
A. Fresh fruits and vegetables are always great. Especially the ones rich in color like; mango, papaya, blueberries, cantaloupe, orange, berries, carrots, green beans, broccoli, rich green lettuces and wheat grass. Some cooked proteins such as eggs (with shell), fully cooked chicken or turkey and the bones are also favored by birds and can be offered. Birds also enjoy grains and can be offered granola, oatmeal, rice, pasta, couscous and quinoa if simply prepared (little to no added salt or sugar).

Subject: Sherlock Holmes and Dr. Watson Goes on a Camping Trip

Message Detail:

After a meal and a bottle of wine, they lay down for the night, and go to sleep.

Some hours later, Holmes awakes and nudges his friend Watson.

Holmes, look up at the sky and tell me what you see.

Holmes replied, "I see millions of stars."

What does that tell you?

Watson says:

Astronomically, it tells me that there are millions of galaxies and potentially billions of planets.

Astrologically, I observe that Saturn is in Leo.

Horologically, I deduce that the time is approximately a quarter past three.

Theologically, I can see what God is trying to tell us, and it makes me feel very insignificant.

Meteorologically, I suspect that we will have a beautiful day tomorrow.

What does it tell you, Watson?"

Watson was silent for a minute, then spoke. Holmes, you idiot. Someone has stolen our tent!

Prayer to St. Joseph over 1900 years old

O St. Joseph whose protection is so great, so strong, so prompt before the Throne of God, I place in you all my interests and desires. O St. Joseph do assist me by your powerful intercession and obtain for me from your Divine Son all spiritual blessings through Jesus Christ, Our Lord; so that having engaged here below your Heavenly power I may offer my Thanksgiving and Homage to the most Loving of Fathers. O St. Joseph, I never weary contemplating you and Jesus asleep in your arms. I dare not approach while He reposes near your heart. Press him in my name and kiss His fine Head for me, and ask Him to return the Kiss when I draw my dying breath. St. Joseph, Patron of departing souls, pray for us. Amen

Say for nine consecutive mornings for anything you may desire. It has seldom been known to fail.

This prayer was found in the fiftieth year of Our Lord Jesus Christ. In 1500's it was sent by the Pope to Emperor Charles when he was going into battle.

Whoever reads this prayer or hears it or carries it, will never die a sudden death, nor be drowned, nor will poison take effect on them. They will not fall into the hands of the enemy nor be burned in any fire, nor will they be defeated in battle.

Make this prayer known everywhere.

threat the Constitution is no longer
interpreted by courts to give people of faith, as well as the
schools and service ministries we form, the protection we need
in order to fully live out the implications of our most cherished
beliefs. Meanwhile state courts, legislatures, and city councils
around the country have moved to further narrow the protec-
tions granted for religious liberty as their citizens must choose
between adherence to religious faith and full participation in
the public square.

The threats to religious freedom that are now upon us can be
likened to the frog put into a pan of water placed on the stove.
The water warms gradually and the frog does not realize its
peril until it is too late to jump out of the pan.

Many evangelical and Pentecostal believers and leaders have
not been previously alarmed at how the "pan" has been gradu-
ally heated in the assault against religious liberty. For example,
in our own Fellowship I and others contacted nearly two
thousand credentialed ministers to support a religious freedom
bill just a month ago that was before a committee in the Missouri
House of Representatives. Less than 15 percent of them even
bothered to respond. The bill failed in committee and significant
religious liberty protections were lost. We are like the situation
described by Jesus in the parable of the weeds and the wheat:
"But while everyone was sleeping, his enemy came and sowed
weeds among the wheat" (Matthew 13:25). We have largely been
sleeping. Have we awakened too late?

I trust not.

Mike Beals, stated: "This means that
mission-based aspects of religious col-
leges and universities, which include prayer in classes, chapel
services, spiritual formation activities and faith-infused cur-
riculum, as well as requiring a statement of faith for admission
and requiring ministry-based service experiences would be
at risk if Senate Bill 1146 is passed as is." The bill is an intim-
idated and all-out assault on our religious distinctives.

As I write the bill is under consideration by a House com-
mittee. The fact that it passed the state Senate and is under
consideration by the main House should ring a ten-alarm bell.
If the attempt to gut religious liberty for colleges and universi-
ties is successful in California, you can be sure other dominos
will fall in California and across the country.

The secularists in our society seek to redefine the First Amend-
ment protection of the "free exercise" of religion as a mere
right of worship. In other words, their view is, "If you are going
to be bigoted in your pro-life views or your view that marriage
is between a man and a woman and that fornication (both het-
erosexual and homosexual) is morally wrong—then you must
confine your views within the four walls of your sanctuary. But
don't bring your bigotry into the public square." A society that
adopts such a view may be setting the stage for a future day
when even a defense of biblical teaching on human sexuality
from the pulpit will bring with it the risk of punishment by the
government such as in the loss of our long held tax-exempt
status without which many as nations would not survive.

At a recent meeting I attended in Washington, D.C. that

How to Cook a Thanksgiving Turkey

"Perfect Turkey Very Fast"

Turkey Time How To Cook A Thanksgiving Turkey Perfect

How to Cook a Turkey

How to Cook a Turkey Perfectly

It took me 56 years to find out the easiest way to cook turkey. Years of cooking it the way I could be sure it came out moist and delicious. Why does my turkey end up so dry? Should it be basted, should it not? Is the meat tender? Is it done? Is it overdone? Is it underdone? Are you tired of your turkey being dry, tasteless and tough? Are you plain worried that your turkey will be done... A lot of us do. We use the most tender, juicy and delicious turkey you and your family and guests have ever tasted!

Thank Lord, turkey cooking is simple as can be! I have more before it was always one other great recipes on the table. Why? Here is how it used to be: And because they're usually overcooked. Now you'll see how to cook turkey by using a new cooking method that is easy, fast and delicious.

Easy turkey preparation and turkey there's a few prerequisites for successfully cooking turkey using the method I'm suggesting.

Number One: The temperature in your oven has to be accurate. You might want to test your oven before the big day by simply removing a few days and testing it with a cooking thermometer.

Number Two: Your turkey has been safely and totally thawed and cleaned. The only safe way to thaw a frozen turkey is to place it in the refrigerator and allow **one whole** day for every five pounds of turkey. It is not advised to thaw **one whole** because of the chance of bacteria and contamination, because of that, I recommend thawing a turkey in the refrigerator for the following times:

8 to 12 lbs	2 to 3 Days
12 to 16 lbs	3 to 4 Days
16 to 20 lbs	4 to 5 Days
20 lbs	5 to 6 Days

Bacon

Basic Turkey to start out with is the Perdue brand, this is my personal favorite but I recommend trying many different brands to find your favorite.

Stuffed

Number Three: Any bits that is for the stuffing. Be sure to remove the neck and giblets from the inside of the turkey! Don't worry. People have done it.

Number Four: Know the actual weight of the turkey excluding the giblets and the set many fresh turkeys have stuffed inside to keep them cold. Yes actually may be a cause of concern!

You can weigh the turkey on your bathroom scale by weighing yourself first, then weighing yourself holding the turkey. Subtract your weight from the combined weight and that is your turkey weight.

I never remember getting cooking the method for cooking turkey to turkeys of 20 lbs or less. Click here to find out why. If you cook a turkey over 20

How to cook a turkey. It's now time to cook turkey. From this day, there will be more options for the same meat. Actually, the whole meat is for an entire.

Note: I suggest not making until just before Thanking ship to return to room the reason. The volume of traffic on the web site makes it run extremely slow and usually crashes the website.

Remove the thawed turkey from the refrigerator approximately 1 hour before your plan to begin cooking. This gives the turkey time to remove from the refrigerator and to a few degrees room temperature. The turkey will be cooking at one of the highest temperatures.

Giblets Gravy Preparation: Add to the neck before roasting the oven. The neck position is perfect. The neck type that the bird will take longer to cook, place the neck the pitch and the bird will overcook. Use the middle rack for medium and a thirty, three inch for anywhere over 20 pounds. And keep that your kitchen with the roasting pan. Use it for the turkey with the neck position.

* Use the oven thermometer to ensure your oven is accurate. Most ovens are not accurate. Thank you Lucinda for contributing to the success of many of a turkey!

Bake Cake and preheat the oven to 425F. This is not a typo! I will explain later.

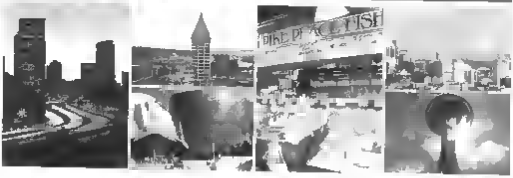
The 2012 ACM Conference on

Computer Supported Cooperative Work

February 11-15, 2012 | Seattle Washington



CSCW is an international and interdisciplinary conference on technical and social aspects of communication, collaboration, and coordination. The conference addresses the design and use of technologies that affect groups, organizations, and communities. CSCW topics continue to expand as we increasingly use technologies to live, work and play with others.

This year we have adopted a new review process for papers and notes intended to increase their diversity and quality. The submission deadline is early to avoid conflicting with the CHI 2012 deadline. This enables us to include a revision cycle. Qualifying authors can revise their submissions after the initial reviews.

For more details about CSCW 2012, please review the Call for Participation on our conference homepage www.cscw2012.org. To learn about future details as they become available, please follow us on Twitter (*@acm_2012*) and/or "like" us on Facebook (*www.facebook.com/CSCW2012*).

Conference Chairs: Steve Poltrock, Carla Simone

Papers and Notes Chairs: Gloria Mark, John Riedl, Jonathan Grudin

Also consider attending WSDM (wsdm2012.org) immediately before CSCW 2012.

Buffalo Cauliflower

- **The Recipe**

  1 head of cauliflower

  2 TBLS vegetable oil

  1/2 TSP salt

  3/4 TSP garlic powder

  generous grinds of black pepper

  1 CUP all-purpose flour (or GF flour)

  1 CUP buffalo sauce or your favorite hot sauce (I don't have a particular brand recommendation, but see what your local grocery carries and check the ingredients to make sure it's vegan)

  Preheat oven to 450° F. Cut cauliflower into bite-sized florets. Toss in a bowl with oil, salt, pepper and garlic powder. Put the flour in a plastic bag (a reused produce bag works well for this) with the cauliflower, and shake until the cauliflower is well coated with the flour. Prepare a greased baking sheet or a baking sheet lined with parchment. (The latter is the best) and place the flour covered cauliflower on the sheet. Bake for 18 minutes. In the same bowl you used to toss the cauliflower and oil, gently toss the

Prayer to St. Joseph over 1900 years old

O St. Joseph whose protection is so great, so strong, so prompt before the Throne of God, I place in you all my interests and desires. O St. Joseph do assist me by your powerful intercession and obtain for me from your Divine Son all spiritual blessings through Jesus Christ, Our Lord; so that having engaged here below your Heavenly power I may offer my Thanksgiving and Homage to the most Loving of Fathers. O St. Joseph, I never weary contemplating you and Jesus asleep in your arms. I dare not approach while He reposes near your heart. Press him in my name and kiss His fine Head for me, and ask Him to return the Kiss when I draw my dying breath. St. Joseph, Patron of departing souls, pray for us. Amen

Say for nine consecutive mornings for anything you may desire. It has seldom been known to fail

This prayer was found in the fiftieth year of Our Lord Jesus Christ. In 1500's it was sent by the Pope to Emperor Charles when he was going into battle.

Whoever reads this prayer or hears it or carries it, will never die a sudden death, nor be drowned, nor will poison take effect on them. They will not fall into the hands of the enemy nor be burned in any fire, nor will they be defeated in battle.

Make this prayer known everywhere.

Imprimatur

INTERCONNECTION OF BALANCED AND UNBALANCED EQUIPMENT

by Bill Woelbeck

Techniques for interconnecting balanced and unbalanced equipment in audio systems seems to be a murky topic for many users, technicians and system designers. It is the subject of numerous calls to our applications engineers. Confusion, and even connectivity, is further fueled by some published "no-no" where engineering basis is dubious, at best. This paper briefly explains the hardware, some underlying engineering theory, and includes wiring diagrams for interfaces that solve many typical system problems.

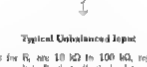
1 "UNBALANCED" and BALANCED

What do these terms really mean? Since I have previously written about the subject of balanced lines in some detail I will just summarize the most important points here. ***Balance is defined in terms of the impedances of the two signal conductors with respect to a reference which is usually ground.***

An UNBALANCED input or output connects one of its signal conductors to ground and has a non-zero impedance at the other signal conductor. Unbalanced inputs and outputs are very popular in consumer electronics, electronic musical instruments and low cost (often called "semi-pro") audio equipment. Examples of typical circuits are shown below:

Typical Unbalanced Input

Usual values for R_L are 10 kΩ to 100 kΩ, regardless of the equipment type. It is R_L that effectively determines the input impedance of the circuit.

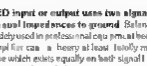


Typical Unbalanced Output

Usual values for R_S are 330 Ω to 1 kΩ and for C_C are 4.7 μF to 47 μF in consumer and musical instrument equipment, often specified to drive a 10 kΩ minimum load. In Semi-pro audio equipment, often special ed to drive a 600 Ω minimum load R_S is usually 47 Ω to 220 Ω and C_C is 47 μF to 220 μF.

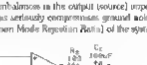
The inherent weakness of unbalanced interconnections is that the shield, which is also a signal conductor, is a path for power line related currents that always flow between equipment grounds. The voltage drop across the resistance of the shield and connectors adds directly to the signal, producing the familiar hum and buzz.

A BALANCED input or output uses two signal conductors which have a equal impedances to ground. Balanced inputs and outputs are widely used in professional equipment because the input of a differential amplifier can be very at least totally null its response to a ground noise which exists equally on both signal I nes. Examples of typical circu ts are shown below:



Typical Balanced Input

Because of its low cost and small size this "active balanced" differential input circuit (or some variation of it) is very widely used. The pairs of 10 kΩ resistors are trimmed to match with n 0.01% in order to null response to ground noise. When used a real-world systems however a major drawback of the circuit is its exquisite sensitivity to imbalances in the output (source) impedances of the line driver. This seriously compromises ground noise rejection or CMRR (Common Mode Rejection Ratio) of the system.



Typical Balanced Output

This output circuit provides two equal amplitude but opposite polarity (symmetrical) signals and equal output (source) impedances in the line. Values for R_S and C_C are generally in the same range as those for semi-pro equipment and tolerances are typically +5% for R_S and +20% for C_C. Although the balance of these (source) impedances strongly controls system CMRR performance especially when used with active balanced inputs a few equipment makers seem to recognize its importance. *The signal symmetry of it is, or any other balanced line driver has much to do with ground noise rejection.*

2 UNBALANCED to BALANCED INTERFACES

The interfaces on the following pages do NOT provide the 12 dB gain necessary to raise the nom nal +4 dBV (316 mV RMS) "consumer" reference level to the nominal +4 dBu (1.23 V RMS) "pro" reference level. If the pro equipment doesn't have enough gain "reach" an active interface may be necessary. A step-up transformer even an ideal lossless one is not a viable solu ce of gain in this application. Reflected impedances cause excess level losses and compromise both low frequency response and distortion.

Total Points: 6 pts
You have now completed all of the steps necessary to prepare for the MVC's 6-Point ID Verification. To ensure that your trip to the MVC goes as smoothly as possible, print this page and bring it, along with your documents, to a Motor Vehicle Agency.

Print Documents

Get It Right the First Time!
Every ID document you show must be an original or a certified copy marked with a state or municipal seal. If any of your documents don't meet this requirement, or if any appear altered or false or are deemed invalid for any reason, you may be required to submit additional documentation. Submitting your Social Security number is required by state law.

Note for Married Women and others with Name Changes
Civil birth certificates are common ID documents, and we want everyone to be able to use them for ID Verification. However, if you have changed your name since birth (for example, when you got married), you will need to show one or more documents that link your old name to your new name.
If you have changed your name since birth, you will need one of the following items for ID Verification:

- A civil marriage certificate is all that most people will need. Just make sure that it meets these guidelines:
- Issued by the municipality in which you were married, not by a religious entity
- Photocopies are not accepted
- Multiple civil marriage certificates will be necessary if you have been married more than once and changed your name each time
- An official court order for a name change will be necessary if you have legally changed your name for any other reason

Total Points

Current total points for: 6

Your selected documents:

- **US passport**
- **Bank statement or record**
- **Current health insurance card, prescription card or employer ID card with printed pay stub**
- **Utility or credit card bill issued in the past 90 days**

* IMPORTANT INFORMATION
If your current legal name is different from the name on your civil birth certificate (e.g., your maiden name) then you must show legal proof of the name change. Legal proof = Certified marriage certificate, divorce decree or court order linking the new name with a previous name.

Dear Pete,

Permit me to introduce you to the facility of facsimile transmission.

In facsimile a photocell is caused to perform a raster scan over the subject copy. The variations of print density on the document cause the photocell to generate an analogous electrical video signal. This signal is used to modulate a carrier, which is transmitted to a remote destination over a radio or cable communications link.

At the remote terminal, demodulation reconstructs the video signal, which is used to modulate the density of print produced by a printing device. This device is scanning in a raster scan synchronised with that at the transmitting terminal. As a result, a facsimile copy of the subject document is produced.

Probably you have uses for this facility in your organisation.

Yours sincerely,

Phil.

MammaPrint has been validated on 774 lines of cancer patients. The test is performed using a microarray-based gene expression profile that was independently validated on 3 [illegible] cancer patient cohorts. An unbiased, supervised analysis of the entire human genome – 25,000 genes, followed by a robust-and-cut [illegible] procedure, revealed the 70 critical genes that distinguish patients as High Risk vs. Low Risk of metastases. Therefore, the MammaPrint result provides independently validated, statistically significant, additional information to physicians to help them decide on treatment in early stage breast cancer patients.

Based on the analytical performance of MammaPrint, the precision of classifying a sample as High Risk or Low Risk is 98% for fresh and 97.3% for FFPE, and the reproducibility of the result is found to be 99% for fresh and 97.6% for FFPE. Furthermore, when a fresh sample's MammaPrint Index (MPI) falls within a pre-defined area around the classifier cut-off between -0.0378 and +0.0378, the classification accuracy is less than 95%.

Evolution Can't Explain Morality

Sign up to receive *Solid Ground* free.

Gregory Koukl

If you argue that morality evolved, you may end up saying that one "ought" to be selfish.

Yesterday I had a very interesting conversation about morality and whether evolution is an adequate explanation for morality. Many of you know that I have argued for a long time that morality -- the existence of moral things, "oughts" the notion of moral actions and moral motives, the reality of morality -- is a very powerful evidence for the existence of a moral God, whose character is the moral standard of the universe. I won't suggest that this is without problems but I think it best answers the existence of morality. Those who are physicalistic, naturalistic, or empiricistic in nature -- physicalistic are those people who want to define everything in purely physicalistic terms that can be understood by chemistry and physics; those who are naturalistic want to explain everything solely in terms of natural law without any appeal to transcendent law or supernatural things or beings, those who are empiricistic want to explain everything in terms of that which you can access by the five senses -- are going to try to find ways of understanding morality that falls within the purview of their belief system without having to make an appeal to a divine being. But I don't think that works.

One way to go about this is to argue from effect back to cause, looking at effects and asking ourselves what is the simplest, most elegant solution that is an adequate explanation for the effects that we see. Not the simplest solution, but the simplest which is also adequate. This is also known as Ockam's Razor. I don't think the evolutionary explanation is adequate. That goes something like this. In order to survive, animals develop. Through the process of natural selection, naturalistic forces mold certain behavior that we call moral behavior which simply functions to allow the organism to exist and continue to survive. Actually not the organism, but the species, because in some cases it requires sacrificing individual organisms so that the larger species can survive. This is all that morality ends up being.

That which we think is morality or that which we call morality, turns out to be a description of animals conditioned by their environment to act in certain ways that benefit the survival of the species. We have just given that conduct a label. We call it morality. That is offered as a sufficient, adequate and complete description of how the behavior that we call moral behavior actually came about.

My response to that is it can't an adequate explanation at all, because the category of things that we call moral is not adequately engaged by mere descriptions of past behavior. That morality entails a look forward to the future, not just to the past, not just looking backwards to what we have done, or what was done by certain individuals, which they happen to call moral. But it is a look forward into the future about how we ought to behave. Since morality is prescriptive, not descriptive, and if it is normative -- if it talks about how we ought to behave -- and the evolutionary description of moral behavior doesn't engage that very fundamental, core element of morality, then it hasn't explained it and morality still

尊敬的王秋平大師

一元復始　萬象更新。在此先祝願您們身体健康、萬事亨通、矯若蛟蛇、恭喜發財、大吉大利、笑口常開。

今年在華泰和古中國竹老師林力倡導，各位畫會領袖和畫廊顧問、友好同人一力支持之下，國際畫廊有華和加拿大中華文化藝術總會及加拿大環球華華人藝術家協會聯合主辦了「蛇年新春國際筆會」，日期是農曆年初八（即 2013年2月17日星期日）亦是華埠新春大遊行的同一天，時間是由下午一時起至六時止，在國際畫廊舉行。我謹將有關活動之新聞稿及詳細活動內容及細則都以附件形式傳給您們，希望您們抽一點時間閱讀，以便要解有關情況。

這次的活動，可以說是關係到華人書畫界在海外華的榮辱興衰。今次的活動從構想到執行，竟然獲得兩大華人畫會的各于和超過二十位書畫的領軍人物支持，足印證書畫界一條心。中華書畫藝術中興有望。由於這是第一次採用新形式進行，包括：公開徵求書畫展品、劃一友誼競投價、劃一作品即時及全部競投價都作測筆金額回作者等等，都未有試過。我們的心情戰戰兢兢，恐怕掌握不到活動的精髓而得不到預期的效果，那就辜負了人家的心血和期望了。

因此，我和兩畫會的負責人特別呼籲您們要作具體的支持這次盛舉準會。這些支持可包括下述幾方面：

1　請您們鼓勵及發動您們的會員、朋友及參生購作品交來展出及競投，當然，您們也首先以身作則，在二月七日（星期四）時，將二平方呎面積之書畫每人一至兩張送交國際畫廊或兩畫會之負責人。胡淑君、王海鵬、洪子珊或本人，以便托裱及編排競投目錄。

2　請您們發動您們的親友，特別是愛好中國書畫藝術的人士、社團或商界朋友支持這活動，踴躍捧場競投書畫作品的號碼牌。我們今次除了盛宴和工作人員外，其他參加人士必須憑競投牌方可入場。競投牌每個加幣伍佰圓正。入場及競投辦法詳參閱附件之細則。預購也是向胡淑君、王海鵬、洪子珊及本人辦理。我相信這一年一度的盛會，包括了這麼多名書畫家的作品提供現場以及這個競投，必定是物有所值的。請您們大力推介。

3　最重要的是請您們準時赴會，當日一時三十分開始的團拜，我們邀請了很多中華書畫文化界的代表人物半席丰橙，可謂冠蓋雲集、濟濟一堂。由於國際畫廊及兩會之顧問周士心教授、王健教授及黎沃文教授的分別獲得「美女皇登基鑽禧紀念獎章」之殊榮，國際畫廊特別舉辦

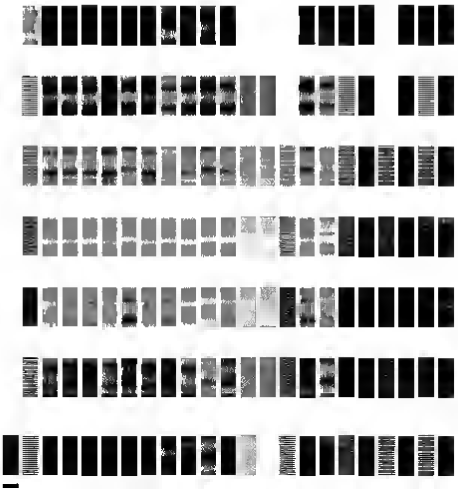
THIS IS A TEST



Tim Wise is the director of the Association for White Anti-Racist Education (AWARE) in Nashville, Tennessee. He lectures widely about the need to combat institutional racism. Under him, and the growing number of anti-racist activists in the United States, this article has appeared in many venues. It was published in newspapers throughout the country, in a pamphlet entitled "School Shootings and White Denial," which first appeared on the "Stormfront.org" Aryan Nations web site, and in other publications. Wise's analysis of school shootings is not the only one that has been presented, but it is one of the few that challenges mainstream representations of the causes of extreme and violent behavior. For those who have internalized these perceptions of crime and violence "blended" by racism, as you read this essay, look about you—does your knowledge of how the reality of crime is manipulated in the service of racism and the role played by violence in challenging or reinforcing perceptions of crime.

Let us think of no other way to say it, so here goes: An unfair bias for white folks need to pull at least a decade out of our collective ass. How more children's scandals get blood on the front pages and on the evening news than white ones? Let's be honest: the only time the names of the victims are known is if they're white. Otherwise, they're just another anonymous statistic in the urban ghetto. Remember Polly Klaas? Of course you do. Everyone does. Her face was on every milk carton in America for months. Her murder was the subject of countless hours of television news coverage. Her killer was executed. Now, how many of you can name the last black child murdered in your city? Or the last Latino child? Or the last Native American child? Or the last Asian child? Not many, we'll wager. Because the media don't care about them. Because they're not white.

I said this after Columbine and no one listened, so I'll say it again. Most whites live in a cocoon of race delusion. We think America age is black in theory but not in practice, and it's safe if we cry wolf enough times. Pretty soon, people stop listening. Which is why we have to keep saying it, over and over, until it sinks in. Until we can find an "all-American" town. Hint: it won't be Littleton, Colorado.

Let me remind you, before pointing this out, that in some you haven't heard "there" is who it is the only place these kinds of things do happen. Of course there's plenty of violence in urban communities, but when it's murder with a machine gun, kill-em-all-let-God-sort-em-out mass murder, it seems made for those "safe" white suburbs or rural communities. Yet the FBI insists there is no profile of a school shooter.

Come again? What a boy after white boy after white boy decides to use that classroom for target practice and we're told there's no profile? In the past two years, 32 young men have either carried out or planned mass murder in their schools, and we're told there's no pattern? Not one of them was black, Latino, Asian or Native American. Not one of them was from the inner city. Twenty of them have been killed, and not one of them was black. Not one. Is there no profile? Imagine if these boys had been all black. Imagine if they were all Latino. Imagine if they were all Native American. Imagine if they were all Asian. Do you think we'd still be told there was no profile? Do you think we'd still be told there was no pattern? Do you think we'd still be told there was no reason to put a racial face on the perpetrators? Do you think

Stabilizing the Text

1. What does Wise consider the most severe act of violence in America today? What are some of his suggestions as to how to deal with it?
2. What assumptions does Wise find in—and order does Gates happily fit into—many of the essay words, phrases, or sentences that support these assumptions in what ways do these assumptions seem fair or balanced? What ways do they seem unfair? Do they help us to see the multiple places we are in? Are some other assumptions at work that are not addressed? Explain.
3. Gates suggests that—at least for now we should fight to end violence theory. "Too few diverse cultures share the dream" perhaps. How do you consider this statement? Is it logical to "fight" violence? Why or why not?

Mobilizing the Text

1. What terms does Gates use to characterize the views of criminals? What term does Gates use to characterize violence perpetrated by police? What are the major terms reveal regarding police and regarding criminals? In what ways do these attitudes shape his conclusions?
2. Gates suggests a wealth of statistics to support his claims that the DARE programs are effective in combating crime. How well do his statistics support his assertions? How can the statistics be used as supporting the argument that the DARE program are not successful?
3. Where do you imagine Gates is arguing against in this essay? Indicate specific passages that suggest whom he is opposing. Do you think there are some people who would be in the Rodney King Jr. magazine in which this essay originally appeared? If not, why do you think he published the piece there?

Hello World

THE STOREHOUSE

Washington had many workers on his estate. While many of the slaves thereon were namely unskilled field workers, a minority were skilled. Of these skilled workers, some were blacksmiths, woodworkers and others. The storehouse depicted here, was where primarily the field worker kept the tools of their work. This storehouse is shown as being similar to the modern idea of a shed or garage.

Check the phone cord connection between the wall jack and the fax.

The phone cord from the wall jack should be connected to the port labeled "1-LINE" on the back of your HP device.

If you are using a splitter or some other device between the fax and the wall jack, then over it and connect the fax directly to the wall jack.

Plug your phone into the wall jack and check that a dial tone is available.

Check that you are using the phone cord supplied with your HP device.

Refer to your User Guide for more information on the fax test and setup.

Climate/humidity table

Be the first to review!

The table shows the "shade in humidity" in g/m³ (upper line) and relative humidity in % (lower line) for various air temperatures in °C and °Fahrenheit as a function of relative humidity.

Example: At an air temperature of 30°C and a relative humidity of 70%, the amount of humidity is 18.1 g/m³. Until the dew point temperature is 45°C.

Superflux MF

Monochromatic Focusing

X-TREME FLUX FROM AN AIR-COOLED

Superflux MF provides a fully integrated MONOCHROMATIC X-Beam® solution. This X Beam consists of a low power AIR COOLED x-ray source coupled to a Doubly Curved Crystal focusing optic and includes a HVPS and controller. The compact size and unprecedented stability of the Superflux MF ensures easy retrofitting to existing instruments while reducing time-to- market for new cutting edge XRF lab and process analytical tools.

Through its ASC (Active Source Control) feature, Superflux MF delivers flux stability under changing temperature and power conditions, enabling breakthrough performance in the most demanding analytical instruments and sensors. The plug-and play system design supported by datum features enables seamless in the-field X Beam exchanges ensuring consistent and predictable performance from beam to beam. Effective use of 50 watts generates a micron-sized focused beam with extremely high flux density while maintaining optimum beam alignment.

Superflux MF is available in several standard focused beam configurations or can be tailored to customized beam specifications.

Test fax

PLEASE check the contents of your order upon receipt. Report any discrepancies to us immediately at sales@ceramicgrillstore.com.

Wash woks and stainless steel metal pieces before cooking with them. Remove any protective oils and dirt/oil that might remain from the fabrication process. After cleaning, hand dry with a towel. See below for seasoning a wok.

We just want to take a quick moment and thank you for the order. We hope the equipment makes your cooking experiences enjoyable with tasty results.

Here are a couple of ideas that should shorten the learning curve:

- Bookmark www.ceramicgrillstore.com and use the site as a reference. We designed the site specifically to be an informational site
- Don't be afraid to ask questions. We encourage folks to help others. We enjoy seeing folks share experiences and tips.
- Start with the basic set ups first – (1) single grid direct, (2) single grid indirect, then multi grid. Like most things, it's better to walk a bit than jump into a full sprint.
- If you are just learning to cook on a ceramic cooker, stay consistent with product choices. For example, if you grill steaks, stay with the same cut, grade and thickness until you perfect it. Then move onto other steak types. Consistency in product will speed up the learning curve. Keep written notes, too. They will help improve the next cook.
- If you can, take pictures. On behalf of other users, we'd love to see them. Feel free to send us pictures for the picture section on the front page of the CGS's website. If you perfect a fun or unique cook, please share it with us. We have the website to share information and there are the various forums too.

Again, we appreciate your business and look forward to seeing your cooks.

If you would, please revisit our shopping cart and review or rate the equipment. It is important, as your comments give direction to others considering a purchase and help us maintain quality products. Probably best, if you review/rate after some hands on experience. So, we may remind you in 30 days or so with a short follow up email. Thanks!
